HOW OUR PROGRAMS WORK:

In order for you to buy a home, two things need to happen.

1. You must qualify for a first mortgage loan.
2. You will be expected to have funds available for the down payment and closing costs associated with a first mortgage loan.

If you are eligible, Keystone can assist you with the down payment and closing costs!

OUR GAP PROGRAM:

For very low, low and moderate income households, depending on the availability of funds. You obtain an FHA loan, or other affordable first mortgage loan through a mortgage lender or mortgage broker. Keystone assists you with the down payment/closing cost assistance.

You choose the mortgage lender or broker, and they will initiate the request for down payment assistance with us, on your behalf.

If you are interested in buying a home, we recommend that your first step be to attend our Homebuyer Education Class as soon as possible!
